OVERVIEW

Pedro Coutinho is a 32-year-old company manager, based in Lisbon. His career has been very successful, and he has recently been promoted so that he now earns a substantial income, providing a comfortable lifestyle for his family.
Pedro is married, and he and his wife recently welcomed their first child, a newborn son. With his growing family, Pedro is looking to purchase a good apartment in the heart of Lisbon. He wants to invest in a spacious, modern home that offers proximity to the city's best amenities.

GOALS

Pedro wants to purchase a spacious 3-bedroom apartment in a secure, private condominium located in central Lisbon, near his workplace and good schools.
Both his wife and him prioritize being near prestigious, high-quality schools for their child’s education, avoiding long commutes.
Pedro wants to ensure that the apartment he purchases will retain or increase in value over time, providing financial security for his family.

MAIN FRUSTRATIONS

Housing market in Lisbon being very expensive.
Needing to be close to his job because he always has a full schedule, with little to no time to commute.
Pedro is concerned about the long-term value of his investment. With rising property prices in Lisbon, there is always a risk that the market might become unsustainable or that prices could drop in the future.
